Nova Engineering Adds Italian System Integrator IES to its NovaRoam Distribution Network

Cincinnati, OH, February 27, 2006 – Nova Engineering, Inc. announces the addition of Italian system integrator Ingegneria Elettronica Sistemi (IES) to the sales channel network for its NovaRoam® Mobile Router product line of long-range mobile ad hoc networking solutions. IES S.r.l. joins SurCom International B.V. of The Netherlands and Interactive Systems & Business Consulting of Romania on a growing list of European resellers for the product.

IES is a full-service telecommunications system integrator with software and mechanical design, integration, testing, installation and support capabilities. The company will enjoy exclusive Italian distribution rights for the NovaRoam product line, including both the commercial *E Series* routers and the military-oriented *T Series* routers.

"IES offers extensive market experience and an impressive portfolio of capabilities. We look forward to tapping into their expertise to jointly address the Italian government wireless data communications market," said Marketing & Sales Director, Michael Rauf.

"This partnership is a great opportunity to market the NovaRoam product line to the Italian Navy, Air Force, Army, Civil Defense, Police, and Coast Guard," according to Armando Bonifazi, President of IES S.r.l.
